

# Caprylic acid

CAS : 124-07-2  
EINECS : 204-677-5  
INCI : Caprylic acid

 **Grade RSPO Mass balance on request**

Caprylic acid or octanoic acid is a saturated fatty acid with a chain length of 8 carbons which occurs in coconut- and palm kernel oil.

## Product Specifications

Acid value	mg KOH/g	382 - 391
Colour Lovibond 5 ¼ "		≤ 5Y/0,6R
C8 Caprylic acid	%	≥ 99
Iodine value	g I <sub>2</sub> /100 g	≤ 1
Saponification value	mg KOH/g	383 - 392

## Other characteristics - typical values

Appearance		Colourless to slightly yellow liquid
Unsaponifiable matter	%	< 0,5
Titer	°C	14 - 18
Drop point	°C	14
Water	%	< 0,2
